the 1058 is a bill that the Committee felt would save the state some money, by accelerating Capital construction in specific areas. I would refer those of you for ..who are interested for instance to page 6 of the bill where you will find on line 8 through 12 four projects. The money is advanced ahead of time to the Game Commission so they can foresee to complete these projects, and it was felt that as a result of discussion by..with the Departments involved that this approach in these few areas that are listed, including for instance, the University of Nebraska Omaha on the next page that by completing the construction ahead of time the citizens of the state would be benefited. Now, if the money is not spent in the allotted time in this bill, that it is reappropriated. Now there, and we have a section on game and parks, we've got a section on Scottsbluff Veterans Home, we have a section on the UNO Central Utilities, Section on the Panhandle Experiment Station.
